

# WORKING STUDENT – UX DESIGN (M/F/D)

## DESIGN IT. CHALLENGE IT. MAKE IT USABLE.

At PETE, UX is not about making things pretty.

It's about turning complex B2B technology into products people actually understand and enjoy using.

As a Working Student in UX Design, you'll work on real product challenges with real users. You'll explore, test, iterate - and see the direct impact of your work in production. This is not a passive support role. It's an invitation to learn by doing.

## WHAT YOU'LL WORK ON

- Designing and improving user journeys within our B2B platform
- Creating wireframes, mockups, and interactive prototypes
- Collaborating closely with Product, Technology, and Customer Success
- Translating complex requirements into clear, intuitive interfaces
- Supporting usability tests and incorporating real user feedback
- Continuously refining existing designs based on usage and insights

## WHAT YOU BRING

- Ongoing studies in UX Design, Interaction Design, Psychology, Digital Media, or a related field (in the Ruhr or Düsseldorf area)
- A strong interest in user-centered design and digital products
- First hands-on experience with tools like Figma or comparable design software
- Curiosity, analytical thinking, and a willingness to question assumptions
- Motivation to try, learn, fail, improve - and grow
- Strong written and spoken English skills (German is NOT a pre-requisite)

## **WHY WORKING AT PETE?**

Because we take working students seriously.

At PETE, working students are not assistants on the sidelines. They are part of the team - with responsibility, trust, and room to grow.

What you can expect:

- **Excellent hourly compensation** - transparent and fair
- **Real responsibility instead of busywork** - your work has visible impact
- **Freedom to explore your own ideas and approaches**
- **A culture that encourages learning from mistakes instead of avoiding them**
- **Direct collaboration with experienced professionals across disciplines**
- **A realistic path beyond your studies**

Most of our working students stay with PETE after graduation. Not because they have to - but because they want to.

If you're looking for more than a student job, this might be the place to start building what's next.

**Sounds good to you? Then apply easily by email at  
[info@pete-ai.com](mailto:info@pete-ai.com) and become part of our team.**
